# Uber-Style Health Counselling Service

Healthy people not only need to have a "healthy body" but also have a "healthy mind"! When you are puzzled by the psychological issues, you can use this app to get a professional help.

So, just enjoy this comfortable and convenient service. However, today's society is busy, when people encounter problems they have no time to seek solutions and fear of the public opinion, so that the problem is getting worse.

Zcon developed a "Uber-Psycho" APP and work with psychological counselors, so people can choose their own comfortable time and place to counsel with psychotherapist.

## Online Counselling Just Need 4 Steps

- (1) Download Uber-psycho app
- (2) Ask for psychological counselling
- (3) System match psychotherapist

# Personalized Precision Health Care

Zcon personalized precision health care with professional pharmacist endorsement can provide personal needs of health supplements. Zcon adopt patented extraction technology to manufacture qualified and safe all-botanical raw materials. Zcon R & D team has new drug development background such as top medical, pharmacy, biotechnology and food science. Our goal is to create internal and external beauty of the health with botanical health supplements.

## Personalized Precision Health Care Order Just Need 3 Steps

Modern life pressure, especially office workers they eat more outside rather at home, lifestyle is not normal most likely to have civilized disease, such as high blood sugar, vision loss, fatigue, poor quality of sleep, memory loss, etc., Zcon recommend for individual needs with professional pharmacists to provide individual needs of health supplements. Meantime, elders may suffer from various diseases at the same time, and it requires various kinds of health supplements. Single health supplement cannot improve all the problems. However, it is still necessary to ask the professional medical division and nutritionists for supplements.

### What health food are you eating ?

The cheap raw materials and chemical synthesis flooding the market.

See the ads to buy vitamin.

Easily contaminated and damp.

# AI Intelligent Health Housekeeper - LiLiAn

LiLiAn

Taiwan will enter the aging society in 2018, the government has started to set up the system for the elders. 2017 Zcon and ASUS jointly developed Zenbo health care robot and 2018 cooperated with smart audio manufacturers launch LiLiAn, the smart health housekeeper, aimed at voice-controlled home economy business, provide the daily information and health care.

## Control LiLiAn in 3 Step

1. Speak to smart speaker  
"I want to measure blood pressure".

2. The Speaker tells the measurement result.  
您的血壓數值  
收縮壓為120  
舒張壓為80

3. Provide on-line health consultation through the speaker.

At present, smart speakers are attracting many attentions. They provide various functions, such as music, weather, online shopping, making phone calls, sending and receiving messages, providing information, news, etc. Spotted this market, Zcon and JS Audio combine medical technology and telemedicine services launch the smart health housekeeper LiLiAn, in addition to allowing people at home through dialogue with LiLiAn to know new health knowledge, it also can provide health consultation.
